

6
Serial No. 10/\$24,067
Attorney Docket 80982BRLO

REMARKS

Claims 1, 6-11, 29 and 30 are pending and subject to a requirement for election of species. Claim 1 has been amended to incorporate the recitation of canceled claim 2. Method claims 31 and 32, corresponding in scope to original claims 3 and 4, have been added. Claims 33 and 34 have been added, based on original claims 29 and 30. Claim 6 has been amended to change "unequal" to "equal." Claims 1, 6-11, and 29-34 remain in the case for examination.

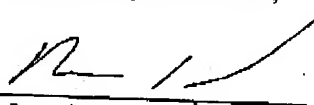

The examiner indicates that the application discloses patentably distinct species of host materials, such as those recited in claims 6 and 7, and dopant materials, such as those recited in claims 8-11 (while the examiner states that both species requirements relate to the host material, it is clear that the second species requirement must pertain to the dopant material).

In response to the requirement to elect a disclosed host material, applicant elects the host material recited in claim 32, newly added, but corresponding to original claim 4. In response to the requirement to elect a disclosed dopant material, applicant elects the dopant material as recited in claim 10.

Claims 1, 10, 11, 31-34 read on the elected species, and claims 1 and 31 are generic.

Should there be any questions regarding this response, the examiner is requested to contact the undersigned at the telephone exchange provided below. Applicant now awaits a substantive action on the merits.

Respectfully submitted,

Marc A. Rossi
